

We wanted to share an important and time-sensitive update concerning the Moodle Mobile App. Beginning **February 1, 2021**, you may no longer have access to the Moodle Mobile App that your team may currently be using.

We ask that you please switch over to the **free Open LMS Mobile App**.

With Open LMS Mobile, you have access to all of the same features you may have already been using in the Moodle Mobile App as well as additional premium features that are freely available within Open LMS Mobile, allowing you to:

- Communicate with all of your learners in one place
- Send Facebook-style messages and notifications
- Record video, audio, and take pictures
- Track your online classes
- Download content for offline use

The Open LMS Mobile App is available for both Apple and Android tablets and mobile devices.

To explore the features available in the Open LMS Mobile App, as well as how to **download and start enjoying**, please read this [blog post](#) and our [ZenDesk article](#).
